2 Attendance Management

2.1 Staff Scheduling

Staff scheduling module is mainly to set up the scheduling for staff or each department as a basis for attendance.scheduling principle: unscheduled department will set the shift of upper department by default,unscheduled staff will set the shift of it's own department automatically.

- Department Scheduling

Attendance Management>Staff Scheduling, click [Department Scheduling](#) turn to department scheduling page, then click  in the operate column,See the diagram below for the scheduling steps:

- Staff scheduling

Attendance Management>Staff Scheduling,click staff name in scheduling list to schedule.

3 Intercom management

3.1 Indoor Unit Management

Intercom management>indoor unit management>add indoor unit

The screenshot shows the 'Indoor Unit Management' interface. The left sidebar has a menu with 'Indoor Unit Management' highlighted in red. The main area contains a search bar with the placeholder text 'Building/Room number/Seri' and a 'Search' button. Below the search bar are two buttons: '+Add' (blue) and 'Send' (green). A red arrow points to the '+Add' button. Below the buttons is a table with the following data:

<input type="checkbox"/>	Serial number	Building	Room numt
<input type="checkbox"/>	324	Timmy	ChingZou
<input type="checkbox"/>	359	Timmy	guo
<input type="checkbox"/>	314	Timmy	mobile phone
<input type="checkbox"/>	315	Timmy	Overseas Ma
<input type="checkbox"/>	312	Timmy	Product Dept
<input type="checkbox"/>	353	Timmy	R&D Room
<input type="checkbox"/>	361	Timmy	Show Room
<input type="checkbox"/>	360	Timmy	Show Room
<input type="checkbox"/>	329	Timmy	会议室

Showing 1 to 9 of 9 rows

You can enter the mobile phone number in the input box of the indoor unit serial number.

Check the indoor unit serial number: Indoor unit APP - Settings - About device

3.2 Open Video Intercom

Intercom Management > Open Video Intercom. Select the device to enable video intercom

(if you click the input box and there is no device to choose from, it may be that the device serial number has not been provided to the supplier's technology)

First,select the Device. Second,select Dial Mode.If you choose the direct dial mode,you should enter the Indoor Unit Serial No.Choose other modes, no need to fill in.Finally, click the “Open VI” button.

Then, refresh this page to view the order execution status.

There are three dialing modes: direct dial ,select room number and input room number.

(1)Direct Dial

Select ‘Direct Dial’ mode, you need to enter indoor unit serial no in the input box. Then click the “Open VI” button . Then, when you dial on the face machine, you will be dialed directly to the indoor unit you just set.

(2)Select room number: After setting this mode, you only need to manually select the room number you want to call on the dev.

Which building the facial recognition machine belongs to will send the indoor units of this building to the facial recognition machine. For example, the facial recognition machine belongs to Building 1. After this mode is enabled, the indoor computer room number of Building 1 will be issued to this facial recognition machine. The facial recognition machine belongs to Building 1 and Building 2. After this mode is enabled, the indoor computer room numbers of Building 1 and Building 2 will be issued to this facial recognition machine.

You can add building in "Building management" page.

You need to log in to the APP with the mobile phone number corresponding to the room number (if it is an indoor unit, you need to connect the indoor unit to the cloud), and then make a call, otherwise the machine will prompt "The called person is not online."

(3) input room number

Enter the room number on the machine and click "OK" to dial the corresponding mobile phone or indoor unit.

Indoor Unit Management					
Room number/Serial No		Q Search			
+Add		Send			
<input type="checkbox"/>	Serial number	Building	Room number	Indoor Unit Serial No	Type
<input type="checkbox"/>	461	g	101	f8ad66ff5f2988e3	Indoor Unit
<input type="checkbox"/>	482	2	301	15527857810	Mobile Phone
<input type="checkbox"/>	481	1	501	6d63cc0f73e66004	Indoor Unit

Take the above picture as an example, if you enter 101, you will call the indoor unit "f8ad66ff5f2988e3"; if you enter 301, you will call the mobile phone that uses the account 15527857810 to log in to the app.

3.3 Intercom Permission

Click Intercom Management and Intercom Permission to authorize. After selecting the device, add the indoor unit to the authorized list on the right.

Unauthorized List			
<input type="checkbox"/>	Building	Room number	Indoor Unit serial No
<input type="checkbox"/>	Timmy	Show Room 01	dc1ea8b30f05fcb2
<input type="checkbox"/>	Timmy	Show Room 02	49de8f0581731daa

3.4 Intercom Capture Record

If the photo saving function is turned on on the machine, a photo will be captured when the door is opened or the alarm is called.

Serial No	Device Name	Capture the image	Capture Time	Remark
ZYRK14089469	Dubai Exhibition		2024-01-18 19:25:20	Alarm

4 Access management

4.1 Day Time Zone

Set up day time zone for device

【Steps】 :

1) click 'Add', it will pop up a window, input day time zone number and name and then set

valid time zones for opening the door, up to 5 time zones a day

2) Click , can change time zone settings, click  to delete this time zone

4.2 Week time zone

Select the day time zone number to be applied every day by week

【Steps】 :

1) click 'Add', it will pop up a window, input week time zone number and name and then

select day time zone to be applied every day by week

4.3 Access Permission

Used to set users' door opening permissions, namely: When does an user has permission to open the door on a certain device

In left side, select the department, and the users will be shown in 'Unauthorized List';

Then select the effective date that these users have permission to open door, and which device to apply, and which time zone to apply.

NOTE: 'Door 1' area should set the week time zone that we set up in previous step

Then select users to right box(Authorized List) to apply above settings, and if device is online status, this settings will be uploaded to device automatically

4.4 Realtime Monitoring

Realtime records will be displayed here

4.5 Access Record

Query access control records

4.6 Mobile open door

We provide matched mobile app, can open door remotely via mobile app, if you need to use this function, Please contact us to add mobile app open door menu for your account firstly

In left side, select the department, and the users will be shown in 'Unauthorized List';

Then select the effective date that these users have permission to open door, and which device

to apply to, and which time zone to apply.

NOTE: 'Door 1' area should set the week time zone that we set up in previous step

Then select users to right box(Authorized List) to apply above settings, and if device is online status, this settings will be uploaded to device automatically

Only when user has permission to open door, then when they login mobile app they can open door remotely during effective period, different users have different account, and above how to enable app function for users, please refer to Chapter 3.1 Enable/disable app

4.7 Open door record

Query the record of using the mobile app to open the door

4.8 Door status record

Query all kinds of abnormal door opening or alarm records

5 Elevator Control

5.1 Floor Settings

Select the device, select the person to be authorized, set the direct floor and optional floor,

and then click  to authorize.

The default maximum optional floor is 16 floors. Elevator Total Floors can be set in the device management.

6 System Settings

6.1 Device Management

System Settings>Device Management,enter device list page,you can add/modify device、

view operation logs、 initialize device and delete in this page.click  to add new device.

Add Device ✕
